We Are Celebrating 20 Years of Innovation and Excellence

Almatris, a global leader in the production of high-performance specialty alumina products, is thrilled to mark its 20th anniversary, celebrating two decades of unwavering dedication, innovation, and success.

Founded over a century ago, Almatris officially became an independent company on March 1, 2004, setting the stage for a remarkable journey of growth and resilience. We stand as a testament to the power of dedication and collective effort, recognized globally for its innovative solutions and commitment to excellence. Today, when *one thinks alumina, thinks Almatris*.

Throughout the last two decades, we have achieved several key milestones, reinforcing our position as an industry leader:

- 2006** Expanded operations with the Huangdao, China Tabular Expansion and inaugurated the Neville, US Grinding Center, enhancing global presence.
- 2007** Achieved 100% ownership in Falta, India, solidifying commitment to strategic locations contributing to success.
- 2011** Expanded continuous ground capabilities at Neville Operations, enabling further regionalization and domestic supply.
- 2012** Established Almatris Campinas, Brazil Sales Office.
- 2013** Inaugurated the first calcines plant in Huangdao, China, facilitating regional production of calcined aluminas for Asian customers.
- 2015** Acquired by the OYAK Group, bringing new opportunities and reinforcing market standing.
- 2018** Marked a milestone with the Ludwigshafen, Germany Calcines Expansion and the opening of the Singapore Sales Office, showcasing dedication to innovation and customer satisfaction.
- 2020** Enhanced global distribution network with the establishment of a Distribution Center in Singapore, streamlining logistics for increased efficiency.
- 2021** Inaugurated the new integrated Tabular Alumina plant in India, Falta, and expanded the Ludwigshafen Wet Mill, emphasizing commitment to cutting-edge technology and sustainability.

News Announcement

2023 Increased calcined alumina production capacity in Arkansas, US by 15%, and kicked off a series of investments in Rotterdam, Netherlands sintered aggregate operations. Optimized our global production footprint to adapt to the changing business environment and become stronger for the future.

We are celebrating this significant milestone, thanks to the entire Almatris Team, and their hard work, dedication, and passion that have contributed to our collective success. The celebration not only pays tribute to the past but also serves as a platform to strengthen the bonds that make Almatris a unique and vibrant community.

Today, our journey evolves and gains momentum. With the same spirit that has carried us thus far, Almatris will continue to set new standards, overcome challenges, and thrive in the ever-changing landscape of our industry.

We would like to extend our gratitude to our shareholder OYAK, valued customers, business partners and Almatris employees for walking with us towards this incredible milestone.

Almatris — Innovating Alumina and Beyond for Future
